

COMPANY COMMITMENT TO QUALITY

We are committed to maintaining high quality standards in our day-to-day operation, and the works we complete.

Halverson Civil will:

1. Uphold the quality standards and objectives of our client and consulting engineers.
2. Ensure we adhere to the best practice quality standards set out by government and industry codes.
3. Maintain our own minimum quality standards where no guidance is given by the client.
4. Create and maintain a robust quality system to follow the standards required by our clients.
5. Train staff on the importance of quality and their requirements within our quality system.
6. Ensure all products/materials procured are fit for use and have necessary traceability to confirm quality.
7. Monitor our workplace to ensure our quality plans are effective and have been communicated and actioned.
8. Record and report quality issues and resolve to improve systems to ensure quality issues are reduced and mitigated.
9. Lead the industry in quality improvement by promoting quality management.

Signed

Ryan Halverson
